NITIN NEGI

Aspiring Cybersecurity Analyst

Almora Uttarakhand | +91-9258925378 | nitinnegi7505@gmail.com

CAREER OBJECTIVE

Motivated and detail-oriented BCA student with a strong interest in Cybersecurity, Networking, and Ethical Hacking. Hands-on experience with network scanning, traffic analysis, and vulnerability assessment through practical lab exercises using tools such as Nmap, Wireshark, Burp Suite, and Linux. Eager to begin a career as a SOC Cybersecurity Analyst where I can apply my technical skills and contribute to securing organizational systems and networks.

TECHNICAL SKILLS

Security Tools

- Nmap – network scanning and port/service enumeration
- Wireshark – packet capture and network traffic analysis
- Burp Suite – web application testing and vulnerability discovery
- Hydra & John the Ripper – password strength and brute-force testing

Programming & Core CS

- Python, C++ , Java
- Object-Oriented Programming (OOP)
- Data Structures & Algorithms (DSA) in C++
- Networking fundamentals (TCP/IP, ports, protocols)

HANDS-ON PRACTICE

Network Scanning & Vulnerability Assessment

- Performed network scanning using Nmap to identify open ports and running services
- Analyzed potential vulnerabilities in a controlled environment

Password Security Testing

- Used Hydra and John the Ripper to test password strength
- Performed brute-force testing in a controlled, isolated environment

Network Traffic Analysis

- Captured and inspected network packets using Wireshark
- Identified suspicious traffic patterns and common protocol behavior

EDUCATION

Bachelor of Computer Applications (BCA) – In Progress
MIET, Kumaon Haldwani Uttrakhand

12th Grade – PCM (Physics, Chemistry, Mathematics)
GIC Kalron, Almora Uttrakhand (263656)

CERTIFICATIONS

- Networking Basics — Offered by Cisco Networking Academy
- CyberOps Associate — Offered by NIT Foundation
- Introduction to Cybersecurity — Offered by Cisco Networking Academy
- Python Essentials 1 — Offered by Cisco Networking Academy

ADDITIONAL ACTIVITIES

- Continuously completing online courses to build cybersecurity and technical skills
- Actively exploring and adapting to emerging tools and technologies to stay current with industry trends

LANGUAGES

Hindi, English
